

Part 1: In-depth exploration of the topics
2nd September 2025

Calculating Carbon Footprint of our Food

Consuming these items as often as you do produces this many kilograms of CO₂ across the supply chain:

Consuming these items as often as you do produces an annual carbon footprint of:

That's the equivalent amount of CO₂ produced by flying a one-way trip from New York City to Washington (Seattle) 2.4 times.
